PRODUCT DATASHEET

TC SMUC1 SODA DISPENSER

The industrial flow-through soda machine features a capacity of 160 liters per hour (2.6–2.8 liters per minute) and is equipped with a stainless steel coil. The machine does not include a tap head. It is designed to produce chilled soda water and chilled still water.

An optional installation package is available for purchase, which includes:

- 1 pcs 7-bar pressure regulator
- 1 pcs water filter housing
- 1 pcs water filter cartridge
- 1 pcs water pressure regulator
- 5 m plastic tubing and clamps

The machine's peak performance in ice bank mode is 160 liters per hour (1.6–1.8 liters per minute). It requires a 230 V power supply and a water connection with a 1/2-inch externally threaded faucet. Any setup within a 1-meter radius of the machine is the responsibility of the customer.
